

ADDASOUND

SOUND CHANGING THE WORLD

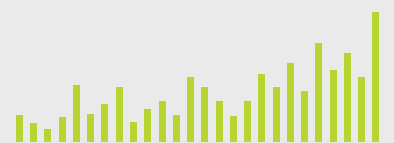

CRYSTAL 2731 / 2732

Value priced Entry Level Headset with Robust Design

The agents in contact centers and offices who handle high call volumes deserve a reliable telephone headset to manage their daily work. With contemporary design, ADDASOUND Crystal 2731/ 2732 headsets are an ideal solution for cost conscious organizations. For a small investment, agents and customers can have a smooth and clear conversation without annoying background noise and repeat dialogue. ADDASOUND headsets pass over 25 rigorous and intense tests before they are approved to launch to the market. With their noise cancelling, comfort and durability, ADDASOUND headsets consistently outperform the competition and improve call quality while at the same time reduce headset cost.
